

# Duet Co-Culture System

## Features

- ▶ Observe and study individual microbial populations in real-time
- ▶ Measure the growth of one microbial population alongside other populations
- ▶ Porous barrier physically isolates populations while maintaining fluidic contact
- ▶ Multiplexed plate accommodates 18 duets
- ▶ Physically accessible wells enable population sampling during and after experiment
- ▶ Compatible with other automation systems giving you the freedom and flexibility to run additional assays on different platforms

Easily run comprehensive microbial interaction studies

Save valuable time and resources with this ready-to-use, off-the-shelf solution

Compare experiments and facilitate collaborations with standardized system

Improved collaboration through standardized co-culture set-up and analysis platform

## Available Products

Duet Co Culture System	CCU-1000
Duet Refill Packs	CCU-3600
Duet Co-Culture Bundle	CCU-B108
Phage Duet Co-Culture System	PCC-1000
Phage Duet Refills	PCC-3600
Phage Duet Co-Culture Bundle	PCC-B108

**With the Duet Co-Culture System, you can expand your lab capabilities while improving accessibility, standardization and scalability in your microbial interaction studies**
